

## Student Guide to Moodle

1. Using Firefox or Internet Explorer (not Safari), go to <http://moodle.cretin-derhamhall.org>.
2. Choose your course from the list in the center of the window:

3. Now you'll come to the login screen:

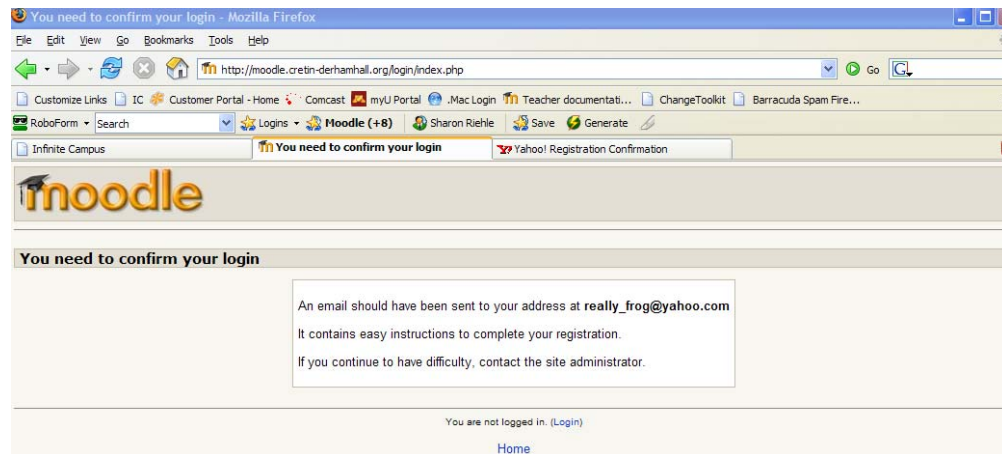

A screenshot of the Moodle login page. The page is titled 'Login to the site' and has two main sections: 'Returning to this web site?' and 'Is this your first time here?'. The 'Returning to this web site?' section includes a 'Login' button, a 'Login as a guest' button, and a 'Send my details via email' button. The 'Is this your first time here?' section includes a 'Create new account' button and a list of seven steps for creating a new account. Three callout boxes provide instructions: one pointing to the 'Login' button, one pointing to the 'Send my details via email' button, and one pointing to the 'Create new account' button.

If you've already created a Moodle account, login here. Important: use the same account for all of your courses.

If you have a Moodle account but forgot your password, click here.

If you are new to Moodle, click here to create an account. Fill in the requested information, including your **CDH** email address.

4. You will receive this message instructing you to go to your email account. Log in to your email, open the message which was sent to you, and follow the instructions given to confirm your account.

5. Once you log in and choose your course again, you will be asked for the enrollment key, which you should have received from your teacher. You will only need to enter it this first time.

That's it!
